

Quick guide registration and login to AnnoSys

Before you can annotate data with AnnoSys you have to register. When coming to the AnnoSys interface from a portal, the annotatable record is displayed. In the top left corner of the page you find the “login” button (Figure 1).

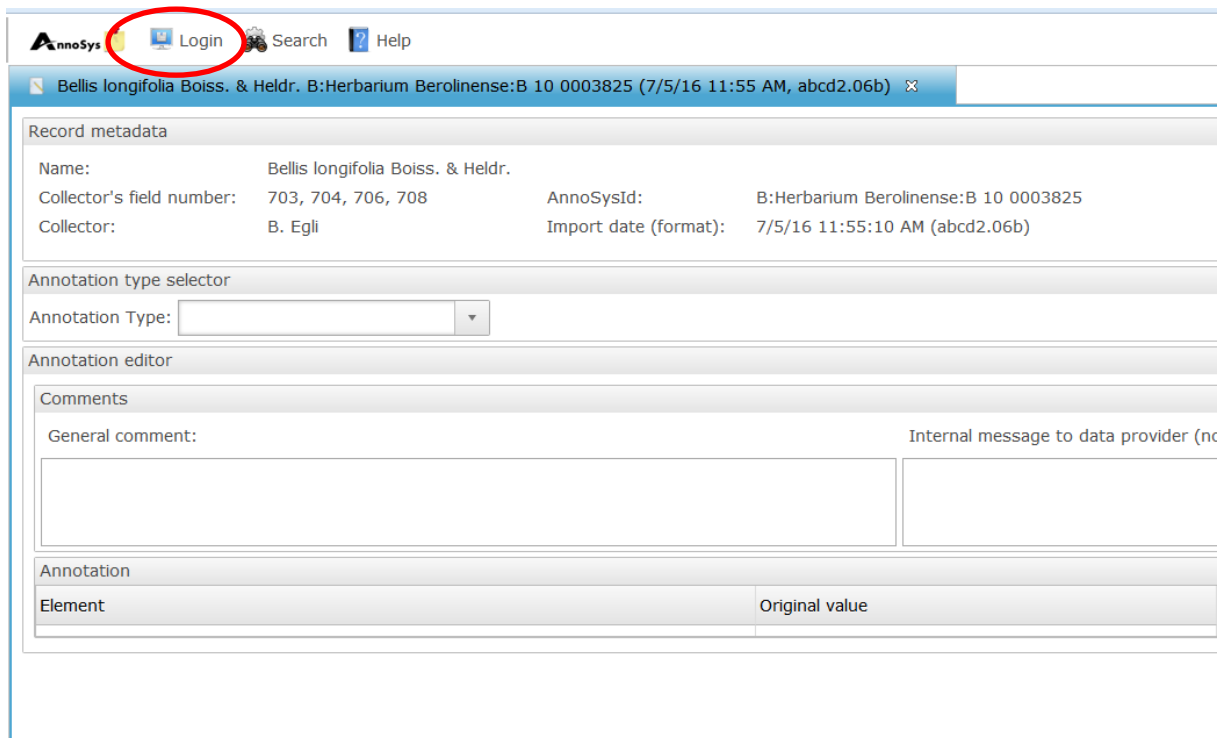

Figure 1: Login button in the header of the AnnoSys page

When clicking this button, the login window appears. If you are using AnnoSys for the first time, don't fill in username and password, but click the “register” button below (Figure 2).

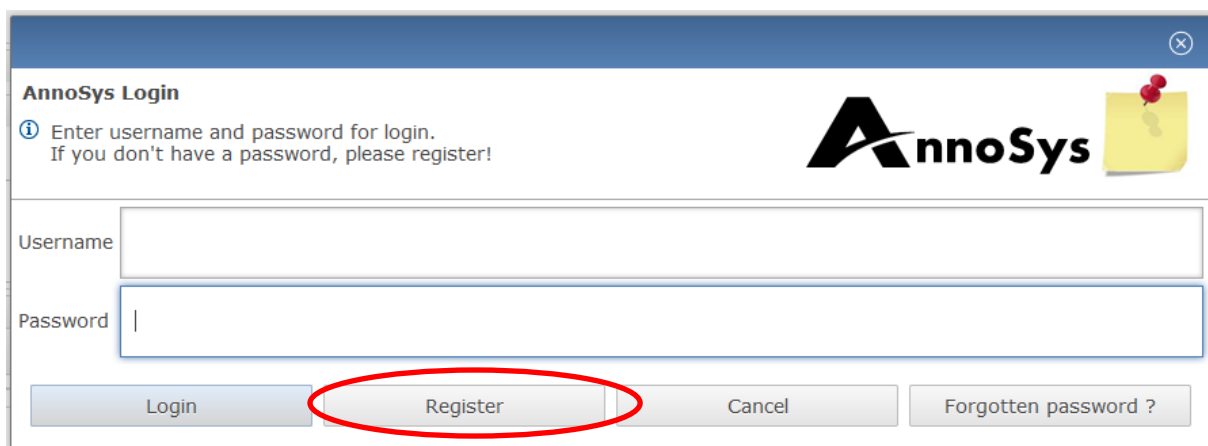

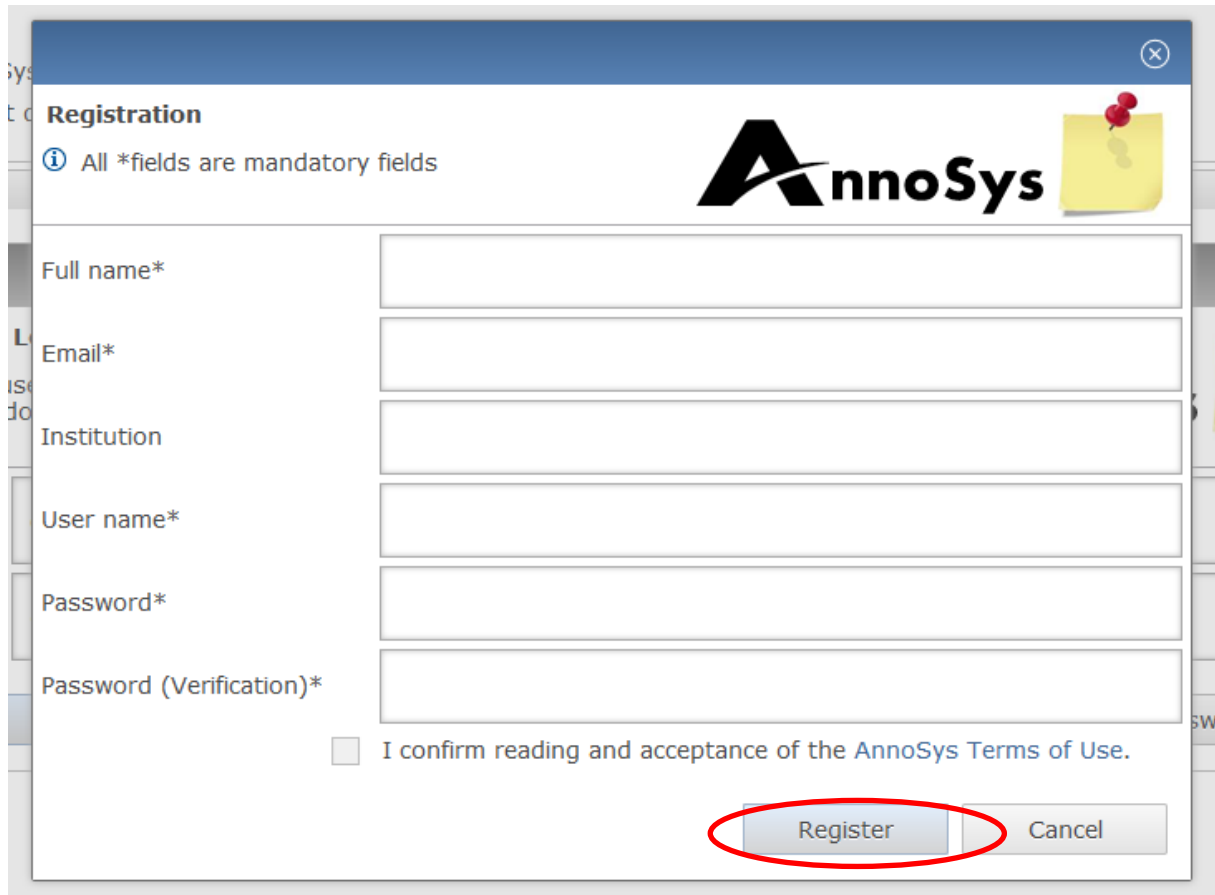

Figure 2: Register button in the Login window.

A new window “Registration” appears. Fill in your data in the fields, use your email-address as your username and click “Register” when finished (Figure 3).

The image shows a screenshot of a web browser window titled "Registration". The window has a blue header bar with the AnnoSys logo and a yellow sticky note icon. Below the header, there is a message: "All *fields are mandatory fields". The main content area contains several input fields: "Full name*", "Email*", "Institution", "User name*", "Password*", and "Password (Verification)*". Below these fields is a checkbox labeled "I confirm reading and acceptance of the AnnoSys Terms of Use.". At the bottom right, there are two buttons: "Register" and "Cancel". The "Register" button is circled in red.

Figure 3: Registration window.

Now you can log in with your username (your email address).
